The department of Neurology at Massachusetts General Hospital and Harvard Medical School is recruiting new faculty for appointment as Instructor, Assistant Professor or Associate Professor interested in building a laboratory research group in mechanisms of neurodegeneration and regeneration. The candidate will have had a record of success with independent funding. The candidate should have received an MD, PhD, or MD/PhD. Review process will begin June 2013. The Massachusetts General Hospital and Harvard Medical School are equal opportunity /

Affirmative Action Employers actively committed to increasing the diversity of their faculty; people with disabilities, veterans, women and members of underrepresented minority groups are therefore strongly encouraged to apply.

Interested candidates should submit a c.v. and cover letter to: Merit Cudkowicz, M.D. Chief, Neurology Service, WAC720, 55 Fruit St., Boston, MA 02114 or via email to mwhitley@partners.org

SfN
SOCIETY FOR NEUROSCIENCE

Share the wonders of the brain and mind with BrainFacts.org

A PUBLIC INFORMATION INITIATIVE OF:

Seeking resources to communicate
with the public about neuroscience?
Educating others through Brain
Awareness activities?

BrainFacts.org can help you
communicate how the brain works.

Explore *BrainFacts.org* for easy-to-use, accessible resources including:

- Information about hundreds of diseases and disorders
- Concepts about brain function
- Educational tools
- Multimedia tools and a social media community
- Interviews and discussions with leading researchers; and more

Visit *BrainFacts.org*

SfN members enjoy premium services, including resume posting and job alert e-mail notices.

NeuroJobs
SfN's ONLINE CAREER CENTER

Have you seen SfN's enhanced job site?

NeuroJobs — the premier online neuroscience career center — helps you find jobs and manage your career. NeuroJobs is now part of the National Healthcare Career Network* providing access to even more career opportunities.

For your next career search, visit NeuroJobs first!

NO MORE INJECTIONS

Simplify your research with automatic and continuous dosing.

ALZET® Osmotic Pumps are a superior alternative to repetitive injections and other dosing methods that require frequent animal handling. These fully implantable pumps provide continuous and precise administration of test agents, in animals as small as mice, for up to 6 weeks. ALZET pumps are economical and easy to use by lab personnel. Learn more at alzet.com
