NEW! Stainless Steel 3-axis Micromanipulator

- Mechanically robust contruction
- Precision cross-roller bearings
- 25 mm orthogonal travel in X, Y, and Z
- Carries up to a kilogram
- Suited for *in vitro* and *in vivo* recording
- Universal mounting system for headstage or pipette holder

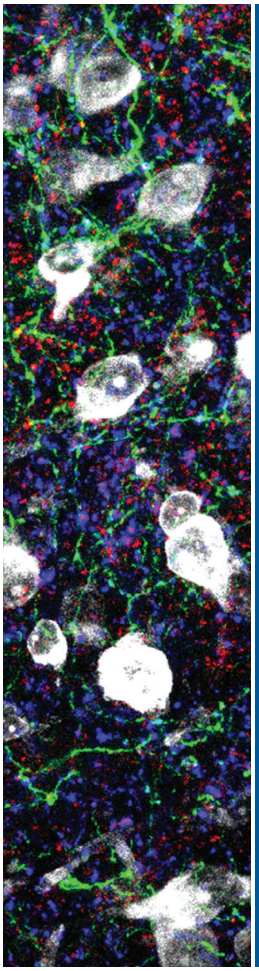

TRIO™ MP-845S

The MP-845 manipulator is now also available in stainless steel! The standard version of the MP-845 has virtually no drift in its motor and bearing assemblies. By utilizing a stainless steel with very low coefficient of expansion, the MP-845S is simply the lowest drift manipulator available on the market. The added mass of the stainless steel body has the additional benefit of dampening out vibration, giving the stainless MP-845S the silkiest movement of any manipulator.

SUPPORT NEUROSCIENCE
WITH A GIFT TO THE FRIENDS OF SfN FUND

As the field's leading professional organization, SfN promotes the importance of neuroscience and strengthens the field worldwide.

Donations to the Friends of SfN Fund support ongoing and new global efforts that:

- Create opportunities to share research with scientists around the world
- Provide resources and professional development for every career stage
- Promote public awareness and engagement with neuroscience
- Advocate for funding and policies that support health and science

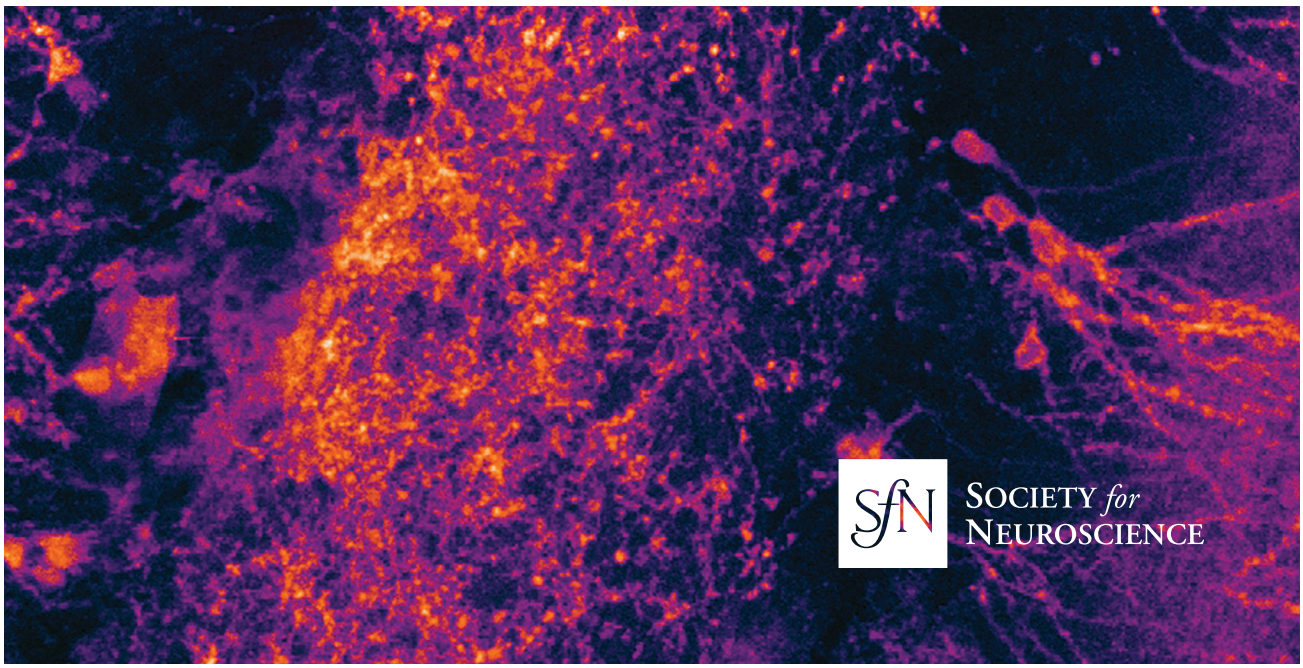

Visit **SfN.org/donate** or contact **development@sfn.org** / **202-962-4057** to learn more about supporting SfN.

Society for Neuroscience is a 501(c)(3) nonprofit organization registered with the Internal Revenue Service and donations are tax-deductible.
